

Advanced lubricants for

# MERCEDES-BENZ COMMERCIAL VEHICLES

Mercedes-Benz is one of the world's largest truck manufacturers, priding itself on providing operators with the latest, most efficient and reliable vehicles. And as one of the world's top lubricant brands, we are committed to developing the highest quality products that meet and often exceed Mercedes-Benz specifications, providing outstanding performance and protection for your Mercedes-Benz commercial vehicle.

Mercedes-Benz has developed its own specifications (e.g. MB 228.51 for engine oils) and Texaco® products are approved against these key requirements. In addition, our products cover a full range of approvals for other OEMs, meaning that we can meet the demands of a mix of manufacturers as well as your core Mercedes-Benz fleet.
